

HOW TO USE

LSEG WORKSPACE
(formerly known as
Eikon Datastream)

INTRODUCTION

LSEG Workspace provides enhanced tools and functionalities for accessing financial, economic, and market data, building on the capabilities previously offered by Eikon Datastream.

Most data is available daily, weekly, monthly, quarterly or yearly.

Data sources include Worldscope, Organization for Economic Co-operation and Development (OECD), International Monetary Fund (IMF), national government bodies and many others.

Useful mnemonics in DATASTREAM EIKON

1

SRCH

Search: Find content and functionality using EIKON search.

2

POLLS

Reuters Polls (Forecast): Discover all forecast data available from Reuters Poll.

3

INDUS

Industry: Industry information such as news, events, research and key metrics.

4

SCREENER

Screeners: Screen public and private companies using a series of criteria.

5

STARMINE

Starmine Overview: Starmine overview is a centralized application for learning more about Starmine models.

Useful mnemonics in DATASTREAM EIKON

6

ECOP

Economic Indicator Polls: Monitor forecast of economic indicators based on the results from Reuters Polls.

7

FLAWS

Global Funds Flow: Explore and generate reports for Global Funds Flow.

8

TRTR

Total Returns: Perform total returns calculations, access total return chart and P&L analysis for multiple instruments.

9

IRPR

Interest Rate Probability: View interest rate probabilities for a number of different countries, including meeting dates, implied rates and probable actions.

10

ALLO

This tool utilizes the classic Markowitz mean-variance analysis as well as Black-Litterman to derive the expected asset class returns.

HOW DO I..

Access LSEG Workspace?

Retrieve and export data in LSEG Workspace?

WHERE TO START?

Please take note of the following access details:

01

License

Single-user access only

Access Point:

Accessible on campus only, via a designated PC (terminal) at the SIR Corner, Perpustakaan Sultan Abdul Samad (PSAS)

Usage Limit

Maximum 2 hours per session per user

WHERE TO START?

02

To use the terminal, please email najah@upm.edu.my to register or book a slot, or visit the library directly to secure an available time.

We will provide you with a list of **available dates and times**. Kindly select the slot that best suits your schedule, and we will reserve it for you. Should you wish to book another session later, please inform us along with your preferred date and time.

NOTE: Remote access is not available under this license, as the library currently subscribes to only one user license.

WHERE TO START?

- 03** Our staff will log in for you once you arrive at the library to access the terminal.

LET'S START!

Screenener

1

The Screenener is a tool that allows you to find securities and deals with specific characteristics.

2

You can apply simple as well as sophisticated filters, and rank the results based on a wide range of criteria to identify the most relevant deals.

Screenener

The screenshot shows a dark-themed software interface. At the top left, a hamburger menu icon is circled with a '1'. Below it, a search bar contains the text 'Search Enter a Command' and is circled with a '2'. The main area is a grid of application tiles. The 'My Apps' category is highlighted in orange. Within this category, the 'Screenener' tile is circled with a '3'. Other tiles include Home, Training, Getting Started, Watchlist Pulse, Reuters Top News, Monitor, News Monitor, Mergers & Acquisitions..., League Tables, Company Overview, Company Deals, Routines, Quote, Index Movers, Broker Stats, Sidebar, Private Equity Screener, Portfolios and Lists, Directory, Company Fundamentals, and Total Return. A 'Close' button is at the bottom left.

EXCHANGE TRADED FUNDS

Overview Regional Providers SmartBETA ESG ETF Leveraged ETFs

WELCOME TO THE ETF LANDING PAGE

ETFs are typically open-ended, index-based funds, with active ETFs accounting for 2% fund market share in terms of coverage and 9.3% based on assets under management. They can be bought and sold like ordinary shares on a stock exchange and offer broad exposure across developed, emerging and frontier markets, equities, fixed income and commodities. ETFs are used widely by institutional investors and increasingly by financial advisors and retail investors to equitize cash, implement diversified exposure to a market, comprise a core or satellite investment, be a long term strategic investment, implement tactical adjustments to portfolio use as building blocks to create entire portfolios, allow investors to hedge the market and for use as an alternative to futures and other derivative products.

BUSINESS DESCRIPTION

Samsung Electronics Co Ltd is Korea-based company principally engaged in the manufacture and distribution of electronic products. The Company operates its business through four segments: The Information Technology & Mobile Communications (IM) segment manufactures computers, handheld phones (HHPs), network systems, digital cameras and others. The Device Solutions segment provides semiconductor and display parts, including dynamic random access memories (DRAMs), flashes, thin film transistor-liquid crystal displays (TFT-LCDs) and others. The Consumer Electronics (CE) segment manufactures color televisions (CTVs), monitors, printers, air conditioners, refrigerators, laundry machines and others. The Harman segment manufactures headsets, infotainment, telematics, speaker, among others. The Company distributes its products within domestic market and to overseas markets.
